

# World Atlas

## The Cartographic Encyclopedia of Planet Earth

This comprehensive atlas places the world at your fingertips in a large-size presentation. The super-sized pages are highly detailed with extensive labelling placed on the specially created and colored relief background mapping. This state-of-the-art relief mapping clearly illustrates elevation variations, from the lowest points in the world to the highest mountain range. Discover the world we live in from a new perspective in this superb atlas, which contains:

- 140 pages of super-size maps with specially created relief background mapping
- Handy table of country facts, making it possible to compare statistics for the 194 nations of the world
- Comprehensive 64-page gazetteer
- Full-color flags of the world

### Specifications
